

## Introducing

# Adjustable Safers

Adjustable Safers minimise the need for the retailer to stock different sizes of safer cases and help to maximise shelf space efficiency. The open design enables the customer to 'touch and feel' the product but at the same time securing the product.

### More Features and Benefits:

- Neat, compact design
- Wide range of sizes
- With sliding lock functionality for added security
- Ability to hang or stand
- Ideal for health and beauty products

### Key Features and Benefits:

**((( AM | RF )))**

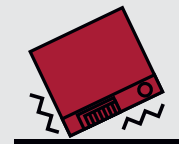

#### EAS System Compatibility

Available in AM  
or RF Frequency.

#### Detacher Compatibility

Available in Standard and  
Superlock strength.

#### Shatter Resistant

Heavy duty shatter  
resistant polycarbonate  
construction.

**1** Made from heavy duty shatter resistant acrylic, ideal for display, these transparent, height-adjustable locking devices keep high-value, high-theft items **secure and accessible**, letting retailers' open-merchandise products with confidence.

**2** The adjustable safer is **easy to display** and can either sit on the shelf due to the flat base or hang from integrated Euro hook.

**3** With sliding lock functionality for **added security** and can be used with all Standard or Superlock magnetic detachers.
