📖 User Guide

BoxGrip **One**™

⚙ Applying the BoxGrip™ One

CE ⊠

1 Position the merchandise on a flat surface. Expand the BoxGrip™ by pulling the locking mechanism away from the backing disc.
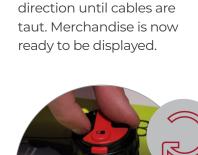

2 Place two of the cables over one corner of the box and wrap the other two around the other side.

3 Center the BoxGrip™ locking mechanism on the front of the product with one cable around each side of it.

4 To lock and arm the BoxGrip™ depress the lock button until there is a 'click'.

5 To secure, twist the bar firmly in a clockwise direction until cables are taut. Merchandise is now ready to be displayed.

🔧 Releasing the BoxGrip™ One

The BoxGrip™ can be used with a variety of detachers, view the correct instructions for your detacher.

S3 Key

1 Place the detacher onto the BoxGrip™. When the tag makes contact with the detacher, the button pops out automatically.

2 Pull away the BoxGrip™ from the merchandise and it will retract neatly ready for reuse.

Commander Detacher (Superlock)

1 Place the detacher onto the BoxGrip™. When the tag makes contact with the detacher, the button pops out automatically.

2 Pull away the BoxGrip™ from the merchandise and it will retract neatly ready for reuse.

⚠️ The grooves on the push button have been added to provide better grab for the user to assist by **manually** pulling if necessary. If the button does not release completely to allow the removal, please grab and pull on the button grooves on each side of the button.
