

SOFTCANS

OneCan

OneCan prevents **shelf-sweeping of refrigerated items.**

The rotating door turns with the use of a handle to allow access to cans one at a time.

Easy to use for legitimate shoppers while **limiting bulk collection by thieves**, this innovation fits seamlessly into refrigerated drinks units.

SMART ACCESS!

CONTROLLED DISPENSING

Delivers one item per pull, reducing over-handling and deterring theft or bulk removal.

VERSATILE SOLUTION

Different size cans can be placed in the same unit. Keeps displays uniform meaning less time needed to tidy shelf displays.

BETTER INVENTORY MANAGEMENT

Keeps stock organized and easy to monitor, reducing the need for constant restocking.
